

Roslyn Urban Forest - 2021

Project Type	Commercial vegetation treatment
Lead Implementer	City of Roslyn
Primary Contact	None
Project Stage	Implementation
Duration	2021 - ?

Commercial vegetation treatment

This project by the City of Roslyn in the Roslyn Urban Forest aimed to address significant past and ongoing outbreaks of western pine beetle consistent with land management goals for reduction in wildfire risk, safe public use of the forest, and providing wildlife habitat. Work is within the 2021 Forest Practices Application #2707076.

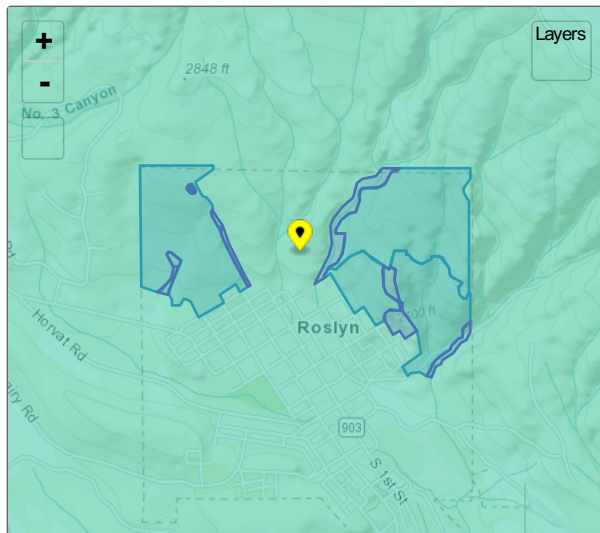

Project Themes

- Wildfire Mitigation

DNR Forest Resiliency staff tour of commercial thin units during implementation in June 2021, including a stop with AFM project leads.
