

Beaver Dam Analog Project

Project Type	Watershed Improvement Treatment
Lead Implementer	Confederated Tribes of the Colville Reservation
Other Contributing Organizations	Trout Unlimited, Washington State Department of Natural Resources
Primary Contact	None
Project Stage	Completed
Duration	2022

Watershed Improvement Treatment

A project to construct and maintain beaver dam analogs in complement to community outreach, native planting, and beaver re-location onto federal lands resulting in 34 beaver dam analogs in Okanogan and Chelan Counties in DNR priority landscapes, 700 native plants planted, and re-location of 15 beavers.

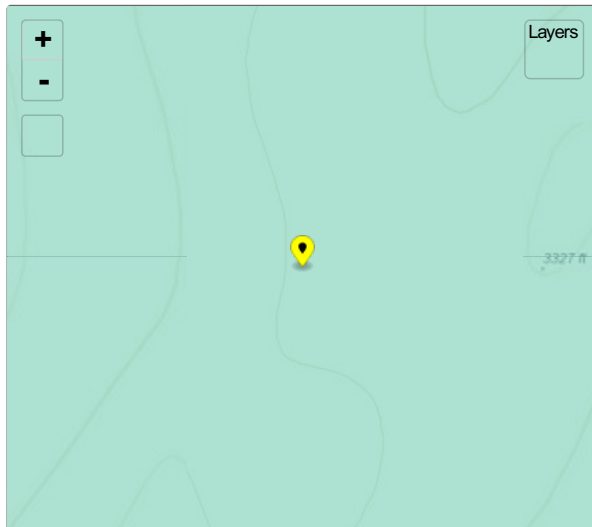

Project Themes

- Watershed Resilience

Beaver Dam Analog Construction - spring 2022.
