

POST-FIRE WDFW WINDY POINT REFORESTATION

Project Type	Non-commercial vegetation treatment
Lead Implementer	Washington State Department of Fish and Wildlife
Other Contributing Organizations	Washington State Department of Natural Resources
Primary Contact	Richard Tveten (Richard.Tveten@dfw.wa.gov)
Project Stage	Completed
Duration	2025

Non-commercial vegetation treatment

The purpose of this grant funded project was to plant trees in the spring of 2025 before competing vegetation became established so trees can grow at an accelerated pace with higher-than-normal survival rates. This project aimed to plant approximately 22,940 seedlings across 400 acres of forest that experienced near 100% tree mortality in the 2024 Retreat Wildfire.
